# US deep-dive on the demographics of age, race and health

## Age distribution of US cases, fatalities and case-fatality rates

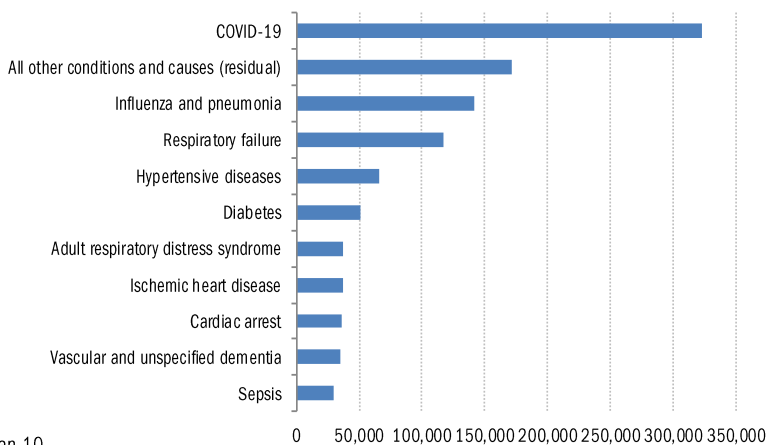

## Racial distribution of US cases, fatalities and case-fatality rates

## Comorbidities

Top-ten joint causes of Covid mortalities, cumulative

As of Jan 10

For 6% of the deaths, COVID-19 was the only cause mentioned. For deaths with conditions or causes in addition to COVID-19, on average, there were 2.9 additional conditions or causes per death.
