US deep-dive

National and state-by-state data do not line up because of different sources

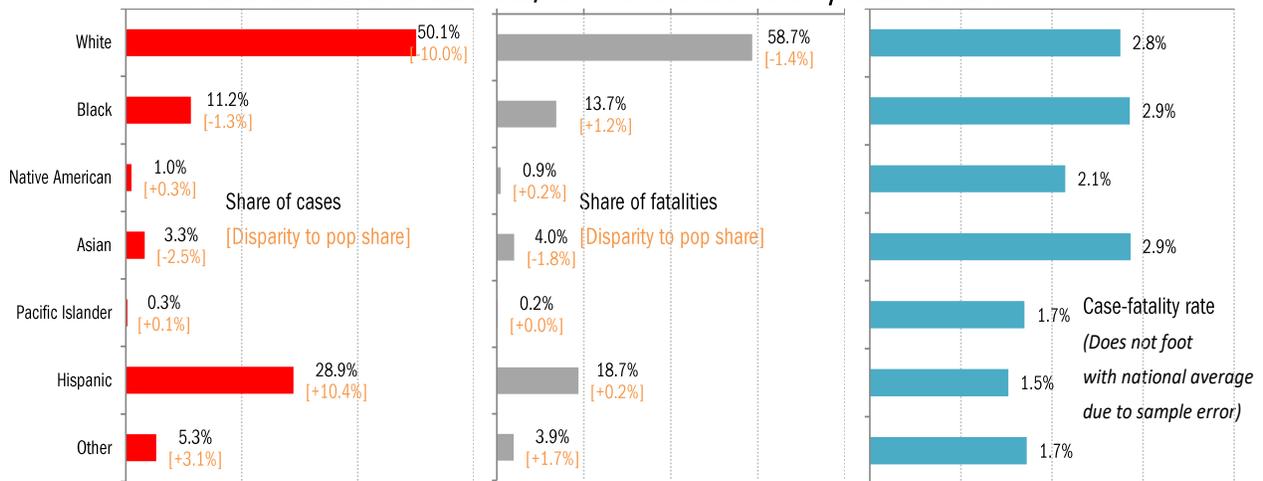

Source: [Johns Hopkins](#), [Covid Act Now](#), TrendMacro calculations

Age distribution of US cases, fatalities and case-fatality rates Cumulative

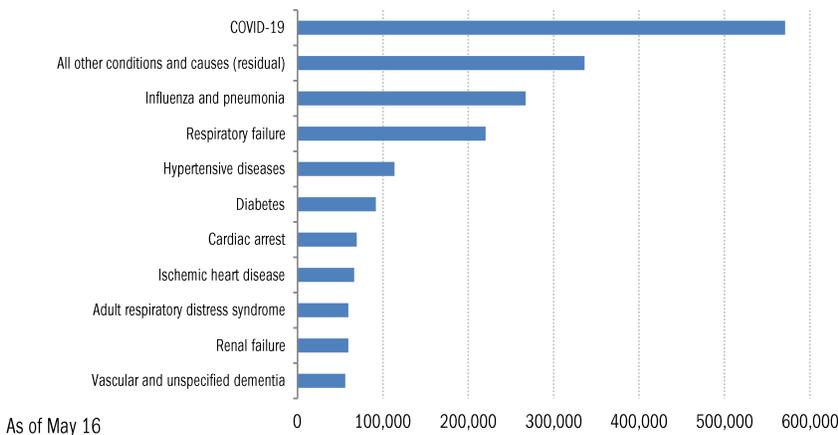

Racial distribution of US cases, fatalities and case-fatality rates Cumulative

Comorbidities

Top-ten joint causes of Covid mortalities, cumulative

For over 5% of these deaths, COVID-19 was the only cause mentioned on the death certificate. For deaths with conditions or causes in addition to COVID-19, on average, there were 4.0 additional conditions or causes per death.
