Today's CPI data: [what Fed chair Jerome Powell thinks you need to know](#)

"To assess what it will take to get inflation down, it is useful to break core inflation into three component categories: core goods inflation, housing services inflation, and inflation in core services other than housing."
CPI equivalent of the Fed's preferred Personal Consumption Expenditures inflation, because CPI updates sooner.

Today's CPI data: [what NY Fed president John Williams thinks you need to know](#)

"I will start to peel the 'inflation onion'... The outermost layer consists of prices of globally traded commodities... The middle layer of the inflation onion is made up of products – especially durable goods... the innermost layer: underlying inflation... Prices for services..."
CPI equivalent of the Fed's preferred Personal Consumption Expenditures inflation, because CPI updates sooner.

Today's CPI data: [what Nobel laureate Milton Friedman thinks you need to know](#)

"...inflation is always and everywhere a monetary phenomenon in the sense that it is and can be produced only by a more rapid increase in the quantity of money than in output. However, there are many different possible reasons for monetary growth, including gold discoveries, financing of government spending, and financing of private spending..."
